

The scatter plot displays the relationship between 'number' and 'count' for different categories and types. The x-axis represents 'number' from 0 to 25, and the y-axis represents 'count' from 0 to 100. The data is color-coded by 'category' (purple, teal, yellow, green) and 'type' (circle, triangle). The distribution is unimodal, peaking around number 14. The plot includes a grid and a legend.
